

12v adapter teardown

This adapter stoped working and i said : ok lets make a teardown

Written By: Paris

INTRODUCTION

Lets do a teardown about this adapter

Step 1 — 12v adapter teardown

First unplug from power plug

Well this thing stoped working and i wonder whats inside

Unplugged

Step 2 — Break the case

- Use a hammer and a screwdriver to do it
- Then open it like in the next step

Step 3 — Opening it

- Use your hands its easy
- Hold it like in picture 1
- One side is open

Step 4 — Rehammer it

- Repeat step 2
- ⚠ Put the screwdriver and hammer it warning not your hand

Step 5 — Open it

- Just open it

To reassemble your device, follow these instructions in reverse order.
